Hallelujah; Hallelujah (repeat)

Your love it is the lighthouse; bringing me in from the cold
I'm focused on your brightness;

It's not to late to share Jesus with that friend... It's not to late to thank God today or to return and say I'm sorry. It's not to late to accept His grace....It's not to late to make known his name... It's not to late to give him praise... to pray... to sing.... To bow and say he is worthy... It's not to late to start all over.... It's not to late for the church to unite... for the world to know His truth... for the people across the street to come to You....It's not to late to let go of the pain.... It's not to late for miracles... for people to turn to the Lord (away from the world)
